

A GUIDE TO OUR SERVICES

About the firm

Scott Rowe can trace its history back to 1789. Whilst still a traditional firm, we can also offer specialist skills to meet your needs in the 21st Century.

We provide advice on the law to farmers, families, businesses, individuals and charities. The practice is not confined to the local area: we have clients all over the country and have many expatriate clients too.

Clients come to Scott Rowe in order to obtain a personal, high quality service from a team of accessible individuals to whom they can comfortably relate.

Our service

In all transactions we aim to provide a fast, efficient, competitive and friendly service.

We believe in giving clear, decisive advice whenever possible, based not only on the legal implications but also on commercial considerations and common sense.

We pride ourselves on our ability to respond effectively to requests for urgent information.

Our intention is to maintain close and friendly contact with our clients so that we can understand and remain sensitive to their individual needs.

Staff

Staff and Partners alike are encouraged to undertake continuing education and training. This ensures we deliver the most up to date advice to you and we can best meet your needs over a wide range of issues.

In addition, we have an enthusiastic and hard working team of administration and support staff that we consider a vital element in being able to provide a high quality legal service.

The firm has adopted quality systems, and has become Investors in People and Lexcel (Law Society Practice Management Standard) accredited.

The firm has in place a continuing programme of investment in systems and information technology and in the training necessary to make the best use of it.
